New CACTUS Dahlias

After growing a large number of the new varieties of true type Cactus Dahlias, I have selected the following collection as the best of them all for exhibition purposes and Garden Decoration:

A. R. PERRY. Old rose, tipped with gold. Large exhibition flowers with long, narrow incurved petals. \$1.00.

AMBER GLOW. A Cactus of the highest English type, petals are long, narrow and straight. Size immense. Stem is as good as its parent, Pierrot. The color is bright yellow, deepening to pale orange at the center. An incomparable exhibit blossom which is also good for cutting. \$3.00.

BALLET GIRL. A new California introduction of particular merit. The coloring is unique, orange with a combination of white. Flowers are very large with good stems. Good for exhibition. \$3.00.

BONNIE G. A Cactus of the scarcest shade in dahlias, a true pink, paler than Delice and deeper than E. F. Hawes. The stem is fair, and this variety will be good for cutting where the constant fogs have a tendency to weaken stems. Is a tall grower and produces very large flowers with great freedom. To a lover of pink flowers, nothing so dainty and pretty has been offered since France introduced Delice. \$5.00.

CURLEW. Old rose, a distinct and pleasing self-color, massive full flowers, very long florets incurving right over center; splendid size and shape. Strong flower stems, free bloomer. \$1.00.

DOROTHY DURNBAGH. A most attractive shade of deep, rich pink, flowers are immense in size; of fine form and habit, with strong stems, that hold up well; one of the best Cactus Dahlias in cultivation. Fine for cutting. \$2.00.

E. F. HAWES. Clear, delicate pink, a shade admired and in demand as a cut flower. Flowers on strong, erect stems. 75c.

GLADYS BATES. One of the popular new dahlias in contrasting shades. Immense, heavy blooms of incurved petals of tan, with a reverse of rose. The oddity of coloring is all that is needed to make this dahlia attractive, but it has every good point as well. Perfect form, closed centre, long, straight stems, and a profusion of blooms. This dahlia is but slightly removed from the English class and some people dispute our classification for it of American Cactus. \$3.50.

MAGNIFICENT (California Cactus). A flower of fine form and immense size, coming 8 inches in diameter without disbudding. The color is difficult to describe, the ground color being Oriental buff, overlaid with satiny rosy salmon. A wonderful free, bloomer. \$1.00.

MISS STREDWICK. The blooms are very large, of the finest quality, and the color is truly beautiful, soft yellow changing to a deep pink, then shading to lighter. Grand for exhibition. \$1.00.

New CACTUS Dahlias—Continued

MRS. BRANDT. A perfect exhibition flower, the florets are very long and fine, the color is a beautiful salmon-buff, blending to golden yellow at the center. One of the largest and best. 75c.

MRS. MARGARET STREDWICK. Far and away the finest Dahlia we have ever raised, and one combining so many good points that we are in no danger of exaggerating its merits. The coloring is a combination of tints of pink, softening and deepening at tips and base. The form as perfect as possible. \$1.50.

UNION JACK. Novelty. Large, red incurved petals tipped white. \$2.00.

VALIANT II. Large flower of brilliant crimson; long incurving petals. Perfect form. Reliable for exhibition. \$1.00.

DECORATIVE DAHLIAS

NEW NOVELTIES

We have observed during the last few seasons a growing tendency on the part of the public who frequent Horticultural Exhibitions to favor the exhibits of huge decorative varieties. This impressed us so much that we decided to grow all the introductions, and to select therefrom those which pleased us in regard to habit of growth—particularly the way in which the flowers were produced upon the plants—floriferousness and general effectiveness in the garden. In size they cannot be equaled and for decorative purpose they are unexcelled.

This collection includes all the Giant Decorative Dahlias. Some of them attaining the grand dimensions of 8 or 9 inches in diameter. The flowers growing as they do upon long stems are splendid for Decorative purposes and for exhibition, win Prizes wherever shown.

CAROLYN WINTGEN. An enormous decorative, each bloom averaging 8 to 10 inches across; salmon pink shading to rose; the blooms held erect on fine, long stems; a beautiful Dahlia for exhibition and good keeping qualities as a cut flower. \$3.00.

DOROTHY WILLIS. A large, fancy decorative; color white, striped, spotted and speckled carmine maroon. Blooms early and continuously through the season. \$1.00.

DUDLEY C. HATHAWAY, 2nd. A new Dahlia which will be grown by all dahlia lovers. The bushes which are dwarf and very rugged are covered with a mass of flowers from six to eight inches in diameter, resembling a huge bouquet. The color is a creamy yellow shading out to a white tip. \$3.00.

NEW NOVELTIES—Continued

GLORIANNA. An immense pale gold bloom with a reddish glow in the center. A color combination hard to describe, but which was greatly in demand last season. The stems are particularly long, and the flowers grow well above the foliage. \$5.00.

HARRY DAVIDSON. A Novelty of an entire new color. A rich mulberry, tipped gold, shading to a golden yellow at center. Long fine stems. \$1.50.

HELEN KELLER. Named by request in honor of one of the world's most noted women; the color is almost identical with the well known pink Dahlia, Rosemawr, but it is an improvement on that variety, being larger and more beautiful in form. \$7.50.

JOHN LEWIS CHILDS. One of the best fancy Novelties. Yellow, suffused, splashed and striped with brilliant scarlet, and generally tipped white. Bi-colored dahlias occasionally have a flower of solid color. In this case the red blossom is often tipped white. Immense size; stiff stem; lasting cut-flower. \$3.50.

KITTIE DUNLAP. It is not only a beauty, but has every characteristic which endears it to a dahlia grower. Blooms freely all season, has excellent keeping qualities; long, firm stems, immense size, and great substance. If this dahlia did not have all these admirable qualities, the coloring would make it popular, as it is of the delightful shade of the American Beauty Rose. The petals are broad but have a slight tendency to roll. The long stems are practically without leaves and we recommend it highly for commercial purposes. \$5.00.

LOYALTY. A color that is hard to get, a royal purple. A wonderful keeper, flowers of enormous size and very long stiff stems. \$2.00.

MABEL B. TAFT. The best decorative dahlia of its coloring. The biggest prize winner of 1919. Has all the qualities required in a dahlia and as a cut flower has no equal; rich apricot shading to pink. \$2.50.

MERITORIOUS. In this new variety we have one which is rightly named. The ground is yellow, shading to orange buff extending out to white tips, the whole being suffused with a golden sheen. The combination of colors are so blended that the flowers attracted as much attention as any flower we showed last year. The blooms are large and stems long. This flower has won certificates at Newport, Providence, Boston, New Bedford, and at the Trial Grounds at Storrs, Conn., it scored 86 points, winning a certificate from the American Dahlia Society. \$3.00.

MISS LEOTA COTA. A more beautiful blending of creamy buff and pink would be hard to imagine; the flowers are enormous, coming 10 inches in diameter. This is not good for cutting, as the huge flowers are usually too heavy for the stems, but as an exhibition flower it is going to be hard to beat. Stock limited. Small field grown tubers. \$5.00.

NEW NOVELTIES—Continued

MRS. CARL SALBACH. The 1920 sensational Decorative Dahlia. Lavender pink in color, showing up well in the garden, as the immense blooms are held erect on long especially good strong stems. Being a perfect exhibition as well as cut-flower, will make this wonderful dahlia in great demand, as it is unusually good. Stock very limited. \$3.00.

MRS. GERTRUDE DARLING. This we consider one of the best new dahlias offered in the east, because of its wondrous coloring, an autumn shade that is in very much demand. Orange buff suffused with apricot, shaded darker in the center. Of extra large size, and very strong upright stems. Flowers are produced in abundance on a strong, bushy plant. At the American Dahlia Society Trial Grounds at Storrs, Conn., it was one that showed up well and was awarded a certificate. \$3.00.

MRS. R. R. STRANGE. One of the very best Novelties. Of wondrous coloring. A burnished copper with faint shadings of old rose and old gold. Not only a splendid garden flower with its fine, large blooms held high above the foliage, but also very useful as a cut-flower, having a new Autumn coloring so much in vogue. \$2.00.

MRS. W. E. ESTES. A very fine, new, snow white Dahlia of much merit. Broad and long, pointed petals, forming a flower of great size. This is easily our best white Dahlia to date. \$2.00.

NOBILIS. Something new in the combination of red and white; the ground of each petal is red, shading out to white at the tips. The blossoms as a whole make one of the most attractive dahlias grown. Plants are dwarf, flowers are borne on long stout stems well out from the foliage. \$3.00.

ONAWAU. New seedling flowers are large, plants are tall and very robust. The blooms are yellow at the base shading out to amber, buff and crimson; a grand dahlia to grow. \$2.00.

ONEONTA. Rosy pink, large, close-built flowers, extra strong grower. Will succeed anywhere. \$1.00.

OSAM SHUDOW. One of the largest and showiest in our garden. The big, heavy, loose petals produce a bloom more like a gigantic rose than a Dahlia. Lovely old rose slightly suffused with lilac and shading to yellow at the center. Long, thick, heavy stems. The immense blossoms are held well above the attractive foliage. \$5.00.

PERFERENCIA. A remarkably fine yellow decorative. The flowers, though very large are not at all coarse, but are rather refined. A splendid grower and very free. \$1.00.

PRINCESS PAT. A magnificent new decorative of a glorious shade of old rose. Very large flowers, perfectly formed, growing well above the foliage on long, stiff, erect stems. A beautiful Dahlia for exhibition and good keeping qualities as a cut flower. First prize 1917 when seedling and winning prizes ever since. \$2.50.

NEW NOVELTIES—Continued

PRISCILLA. An immense white shading to pink. The petals are broad and flat, giving the flower good substance. The bushes grow low and branching and produce masses of flowers with splendid stems. A good feature of this dahlia is its exceptional keeping qualities when cut. In all the shows Priscilla attracted great attention. \$5.00.

ROSA NELL. The color is a clear, bright rose, the flowers are large, and I consider it the best shaped Decorative Dahlia I have seen, coming perfectly full and double until frost; good stems and habit. If I could have but one Decorative Dahlia, this would be my choice, as the color is a rare one in dahlias and attracts immediate attention, while in form cannot be surpassed. This dahlia when it becomes known, will be in every flower lover's garden. The highest praise of this grand dahlia has been received from all parts of the country where it has been tried. \$7.50.

ROSEMAWR. Immense flowers, rich rose pink, dwarf branching habit, by far the best pink decorative we have seen. It captivates every one. On account of heavy local demand our stock of this fine variety is limited. \$2.50.

SCOTTISH CHIEF. Fine flower of a new and unusual shade of golden cocoa or an amber coloring. Sometimes the blossoms are tipped with white deepening into pink. Stems long and strong. Attractive garden Dahlia as well as cut-flower. \$2.00.
